

SCHAFFEN

About US

With over 20 years of family roots in the jewelry business, Schaffen Pte Ltd is a boutique watch brand based in Singapore. We work with local watchmakers and Swiss movements to create custom timepieces. Our aim is to help people create timepieces that not only suit their tastes, but are also meaningful keepsakes.

Our Views About HR & Talent

We believe in grooming talent for multi-functional roles. As a start-up, we need team members to have diverse skill sets and adaptable to the fast-changing landscape.

Students' Feedback

Students who interned with us felt Schaffen is an exciting place to work, lots of hands-on experience, a flat hierarchy and a valuable experience to see how a business is started and run from ground-up.

How have we collaborated with IHLs

We have hired interns from a diverse range of backgrounds from IHLs, from business marketing, to creative design, photography and 3D modelling and design. We are also frequently invited as guest speakers at IHLs to share about the start-up experience, and provide short mentorship stints as well.
